

ESSENTIAL QUALIFICATIONS

THE UNIVERSITY OF ARIZONA COLLEGE OF MEDICINE

All students must possess the capability to complete, with or without reasonable accommodations, the entire curriculum established by the College of Medicine, which is required to achieve an M.D. degree. The medical school curriculum requires demonstrated proficiency in a variety of cognitive, problem-solving, communicative, and interpersonal skills. To achieve these proficiencies, the College of Medicine requires that each student be able to meet the following technical standards:

Motor Skills

A student should have sufficient motor function to execute movements required to provide general care and treatment to patients in all health care settings. Students must be able to elicit independently information from patients by palpation, auscultation, percussion, and other diagnostic maneuvers. A student must be able safely to execute motor movements reasonably required to provide general care and emergency treatment to patients.

Sensory/Observation

A student must be able to acquire the information presented through demonstrations and experiences in the basic and clinical sciences. S/he must be able to observe a patient accurately, at a distance and close at hand, and observe and appreciate non-verbal communications when performing clinical assessment and intervention or administering medications. The student must be capable of perceiving the signs of disease and infection as manifested through physical examination. Such information is derived from images of the body surfaces, palpable changes in various organs and tissues, and information communicated by patients and body functions. The student must be able to adhere to the standards of patient assessment and standards of care, including the use of technological equipment.

Communication

A student must communicate effectively, sensitively and rapidly with other students, faculty, staff, patients, family, and other healthcare professionals. S/he must demonstrate a willingness and ability to give and receive feedback. A student must be able to: convey or exchange information at a level allowing development of a health history; identify problems presented; explain alternative solutions; and give directions during treatment and post-treatment. The student must be able to process and communicate information on the patient's status with accuracy in a timely manner to members of the health care team. A student must be able to elicit information from patients, describe changes in mood, activity and posture, and perceive nonverbal communications.

Cognitive

A student must be able to problem solve rapidly. This critical skill demanded of physicians requires the ability to learn and reason, and to integrate, analyze, and synthesize data concurrently in a multi-task setting. In addition, the student should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures. A student must be able to measure, calculate, reason, analyze, integrate and synthesize in the context of the student of medicine. The student must be able to comprehend extensive written material. S/he must also be able to evaluate and apply information and engage in critical thinking in the classroom and clinical setting. The student must be able to consider alternatives and make decisions for managing or intervening in the care of a patient.

Behavioral/Social

A student must possess the ability to exercise good judgment, and to complete all responsibilities attendant to the diagnosis and care of patients and families. In addition, s/he must maintain mature, sensitive, and effective and harmonious relationships with patients, students, faculty, staff and other professionals under highly stressful situations. The student must have the ability to function effectively under stress and to adapt to an environment that may change rapidly without warning and/or in unpredictable ways. The student must be able to exhibit empathy, integrity and concern for others.

Professional Conduct

The student must abide by professional standards of practice. The student must be able to engage in patient care delivery in diverse settings and be able to deliver care to all patient populations.

I have read and fully understand the essential qualifications required of medical students, as set forth above. I understand that, if I am unable to meet these essential qualifications, I may be dismissed from the College of Medicine. Furthermore, I understand that, if I have a disability that might limit my ability to meet these essential qualifications, I may contact the Disability Resource Center (at 1224 E. Lowell Street • Tucson, AZ 85721 • Phone: 520.621.3268 V/TTY • Fax: 520.621.9423 • uadrc@email.arizona.edu) to explore whether reasonable disability accommodations may be available to me.
