Faculty Diversity Advisory Committee (FDAC) (4 Year Term)

Made official in Jan 2016, the Faculty Diversity Advisory Committee (FDAC) is a standing committee of the College of Medicine Tucson which: 1) identifies strategies, tactics and priorities for improving faculty diversity and inclusivity at the COM; 2) assists in determining how to integrate diversity, broadly defined into everything we do at the college; 3) provides a line of communication between faculty and administration; and 4) supports development and implementation of programs related to diversity that enhance faculty life (related to career development, mentoring, leadership, community outreach, etc.) The committee interacts closely with similar committees for students, staff and other groups.

The FDAC is co-chaired by two of the members of the FDAC. The College of Medicine Deans for Faculty Affairs and Diversity and Inclusion serve as ex-officio members. The FDAC is comprised of 10 faculty members who will serve four year terms. Terms will be staggered to provide for continuity of experience on the committee. Each year, the FDAC provides a list of nominees to the College of Medicine Nominating Committee. Self-nominations to the Nominating Committee will also be accepted. Members of the FDAC will be elected by the voting faculty at the spring general faculty meeting. The FDAC will meet monthly. The work of the FDAC will be supported by the College of Medicine Offices of Faculty Affairs and Diversity and Inclusion.

Members must be on the faculty at the UA College of Medicine at the rank of Assistant, Associate or Full Professor. Additional individuals from staff/student diversity committees or the community may be invited to serve as liaisons on the FDAC. Membership should include representation from multiple departments and centers, all ranks and all tracks. It is expected that the committee will be diverse as defined by the COM Diversity Statement, and will include both UA employed and affiliate faculty. The FDAC must include at least two faculty members from basic science departments, two from clinical science departments.
