Endocrinology, Diabetes & Metabolism Didactic Series

CME provided by The University of Arizona College of Medicine - Tucson

SPEAKER: Craig Stump, MD, PhD
Associate Professor, Medicine
Professor, Nutritional Sciences
Director, Endocrinology, Diabetes & Metabolism Fellowship

TOPIC: “Gonadal Steroids in Male and Female Patients”

LOCATION: Abrams-SC Room 2102
DATE: 1/23/18    TIME: 1:00-3:30

Outcome Objectives:
1. Understand the hypothalamic, pituitary, gonadal feedback pathways and factors that might interfere with its normal axis function.
2. Describe the role of gonadal steroids in primary and secondary sexual characteristics, and in sexual dimorphism or difference.
3. Appreciate the potential risks of using exogenous gonadal steroids in partial deficiency states, in patients with chronic disease, and for non-endocrine disorders.

Accreditation Statement:
The University of Arizona College of Medicine - Tucson is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Arizona College of Medicine - Tucson designates this live activity for a maximum of 2.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure Statement(s):
All Faculty, CME Planning Committee Members, and the CME Office Reviewers have disclosed that they have no financial relationships with commercial interests that would constitute a conflict of interest concerning this CME activity.
