

## Policy on Mandatory Health Insurance

The University of Arizona College of Medicine – Tucson requires that all medical students maintain health insurance throughout their educational career. Students may obtain health insurance either through the commercial health insurance plans offered by Campus Health Service or through their own health insurance carrier.

Students will be required to demonstrate proof of insurance as a condition of enrollment and may be required to provide proof of insurance again prior to participating in clinical rotations at the University's affiliated training facilities. Students who do not maintain health insurance may be unable to fulfill their academic requirements at the UA College of Medicine and therefore may not be able to complete their educational program.

Students may contact Campus Health Service at 520-621-6487 regarding health insurance coverage, or may visit [www.health.arizona.edu](http://www.health.arizona.edu).
