Transfer Student Policy

The University of Arizona College of Medicine-Tucson will consider requests for transfer into the educational program from students who currently are enrolled in a LCME-accredited US or Canadian allopathic medical school.

In considering a request to transfer, the College of Medicine will review medical students with advanced standing that demonstrate academic achievements, completion of relevant prior coursework, and other relevant characteristics comparable to those of the medical students in the class that they would join.

Students being considered for transfer will undergo an admission process similar to that of the MD program. The admissions committee will make the final determination to accept or deny the transfer request.

Due to the unique nature of the medical curriculum and resources at UACOMT opportunities for transfer are limited; therefore, openings in any given year cannot be guaranteed.
